DETAILED ACTION

Allowable Subject Matter

1. Claims 31-52 are allowed over prior art of record.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

Claims 31-41 are allowed over the prior art for the same reasons as set forth in Paragraph 10 of the Office action that was mailed on May 15, 2007.

In addition, the prior art of record neither anticipates nor renders obvious the claimed subject matter of the instant application as a whole either taken alone or in combination, in particular, prior art of record does not teach "the first region being equal to a lowest part of the top surface, the second region being equal to a highest part of the top surface; the method comprising: conformally forming a layer of first material to contact the top surface of the wafer, the layer of first material having a top surface, the top surface of the layer of first material having a first region and a second region that lies above the first region of the layer of first material, the first region of the layer of first material being equal to a lowest part of the top surface of the layer of first material, the second region of the layer of first material being equal to a highest part of the top surface of the layer of first material," as recited in claim 42.

Claims 43-52 are also allowed as being directly or indirectly dependent of the allowed independent base claim.

Conclusion

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
